# Climate change policy

DBL Group adhere to play a leading role in climate change by adopting environment-friendly technologies, business practices and innovation, while pursuing their own growth aspirations and the enhancement of stakeholder's value by being knowledgeable, responsive and trustworthy.

We will ensure to measure the carbon footprint and will strive to:

- Be the benchmark in the segment of industry on the carbon footprint, for our operations.
- Engage actively in climate change advocacy.
- Incorporate 'green' perspective in all key organisational processes.
